

St Nicholas C P School - Information for Year 1 Parents Spring 1 2019

MATHEMATICS

We shall be learning about telling the time to the hour and half past the hour, recognise the language relating to dates including days of the week, solving practical problems for time, place value and addition and subtraction. The children will access Easimaths or MyMaths on a weekly basis to develop classroom taught skills. They will also continue to have daily Big Maths lessons.

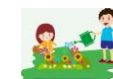

ENGLISH

We will be linking our English to our Topic work this term and will be exploring some of Julia Donaldson's less familiar stories. We will look at rhyming and create our own stories in this style. We will also continue to develop cursive letter formation and the beginnings of joining as well as Phonics, reading and SPaG (spelling, punctuation and grammar) through Read Write Inc.

SCIENCE

We will be looking at plants in the different settings of the Julia Donaldson stories and how they are relevant in our changing world. We will investigate changes in leaves, flowers, how plants grow and how some can produce food for us to eat.

PHYSICAL EDUCATION

We will be focusing on developing the skills of being able to control a ball and use these skills within games such as football, tennis and hockey. We will also be learning to improve our techniques of jumping and balancing and increase our fitness levels. We will continue to partake in Go Noodle and Fit 15 sessions.

It is essential that all children have a PE kit in school every day.

PE will continue to be on a Monday for both classes.

MUSIC

We shall be concentrating on listening to and then composing our own music this term. A large part of this will be done through singing and performance. We will learn the Gruffalo song and other Julia Donaldson songs. We will also be listening to different styles of music, for example, blues and adding percussion to it.

TOPICS

This term our topics will be based around Julia Donaldson. We will research her life and accomplishments as an author. In Art we will explore the illustrations of Axle Scheffler who illustrates for many of her books. In DT we will be focusing on the book Gruffalo Crumble to make a variety of Gruffalo themed treats.

COMPUTING

During our computing sessions we will use the iPads to research Julia Donaldson's life and accomplishments as an author. We will then create our own book about her using the APP 'Book Creator'. We will also continue to use the laptops to access My Maths and RMaths.

A large part of our curriculum will continue to look at internet safety.

RELIGIOUS EDUCATION

This term the children will learn about creation. They will listen to some religious stories and look at some religious artefacts. They will also begin to look at the Christian festival of Easter and how it is celebrated. This will continue into the Spring 2 term.

RE will be taught by Mrs MacDonald and Mrs Burnitt.

SCHOOL CLUBS

There are many clubs happening in school including choir, science club, badminton, table tennis and TTRockstar homework club. Please see your child's teacher for more information.

OTHER INFORMATION

Please ensure your child brings their RWI book back to school and returns it to their RWI teacher. Their library books can be changed every Monday so please ensure that your child has their library book in school.

Dear Parents

This booklet provides you with some general information on the subjects that will be covered by your child in school this term.

We have also included some examples of ways in which you could further support your child's learning at home.

Don't forget, if you have any concerns and would like to discuss your child's development then please make an appointment to see the class teacher.

In line with our Home School Agreement we would welcome your support by:

Talking to your child about the work they do in school.

Set time aside to hear your child read, share stories and information books together.

When they bring work home from school try to encourage them by providing them with a quiet place to complete it.

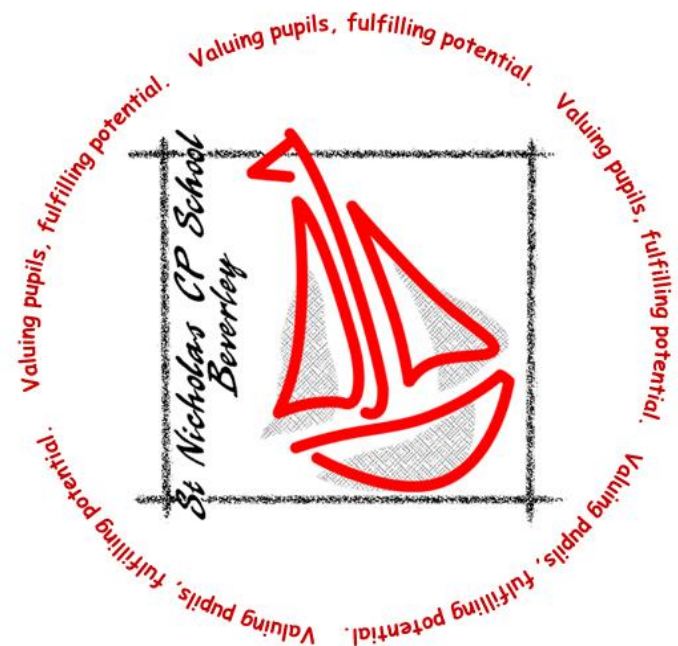

Check work before they return it to school.

Most important of all please praise them for their efforts.

We thank you for your support.
